Sub: Outsourcing of services through service provider agency.

Sir,

Instances have come to my notice that during the tender process for outsourcing of service through service provider, some firm have quoted no service charges in lieu of the services of different personnels that will be placed in the office. It is totally impracticable as to how a firm will provide personnel by payment of the prescribed remuneration but without any service charges. There is also apprehension that the firm may resort not to pay the minimum remuneration as fixed for the different categories of posts. So in such cases where the service providing firm has quoted no service charge such tender should be cancelled.
